#### Final Circular

---

This is final announcement of the 8th Asia-Pacific conference on Few-Body problems in Physics (APFB2020).

The conference will be held by on-site: Kanazawa Bunka Hall (Kanazawa culture hall) in Kanazawa city and by on-line, from March 1<sup>st</sup>-5th, 2021.

The first conference of the series was held in Tokyo in 1999. Since then, conferences have been held, in every three years, in Shanghai (2002), Thailand (2005), Indonesia (2008), Seoul (2011), Adelaide (2014) and Guilin (2017).

---

#### 1. Topics

---

1. Few-body aspects of nuclear physics and nuclear astrophysics
2. Few-nucleon systems, and their interactions
3. Hypernuclear physics including exotic nuclei
4. Hadron spectroscopy and structure
5. Few-body aspects of atom, molecular systems and cold atoms
6. Interdisciplinary aspects of few-body physics and techniques
7. Related topics for few-body systems
