

Guideline on the Duties of the RCNP B-PAC

The RCNP cyclotron accelerator Beam-time Program Advisory Committee (B-PAC), under the entrustment from the director of RCNP with the advice of the RCNP Physics Program Advisory Committee (P-PAC), is tasked with the following responsibilities:

1. To hold a meeting at least TWICE a year.
2. To examine and advise the director on the scientific merit and feasibility of new proposals for experiments using the RCNP cyclotron accelerator facility, and to recommend approval or rejection of the proposals.
3. To provide scientific and technical advice to the director on problem(s) arise during/prior to the performance of an approved experiment.

Note:

1. This guideline takes effect on June 14, 2012.
