

## **NOTICE FOR ALL FOREIGN VISITOR USERS**

Anyone who wish to register as visitor users at RCNP must have completed the following in advance:

- 1. Medical Examination for Radiation Exposure \***
- 2. Education about Radiation Safety**

These are required by Japanese law, and there are no exceptions.

Documents that state the person does not need either two are NOT VALID.

Both are to have been done within a year of date of registering.

Please be aware that if either of the two are not done, the person cannot join experiments.

\* Examination components required by the Japanese law are as follows:

1. Past radiation exposure (if any: the time, place, and the amount of exposure)
2. Blood test (hematocrit value, red and white blood cell count)
3. Skin check
4. Eye exam (cataract screening)

Please contact the Radiation Control Office before registering if past radiation exposure is more than 5 mSv.
