

# Experience and Impression

Okuma group A

Jin Shirakawa

Pititaras Attapon

Lisa Da Vinchie

Mats Benninghaus

# Biggest Impressions

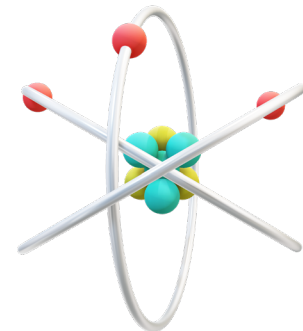

Day 1: The alarm of the radiation measuring device

Day 2: Damaged house and Ghost Town

Day 3: The dimensions of the reactors and the radiation reached at various parts of the Nuclear Power Plant

Day 4: Firefighter taking risk for saving lives during the Tsunami and local people feeling no resentment towards TEPCO

Day 5: Can't believe to leave the onsen ☹️

# Biggest Impressions

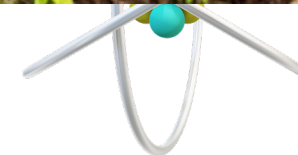

Day 1: The alarm of the radiation measuring

# Sharing information

- Family
- Friends
- Academic advisor
- Random people in the pub

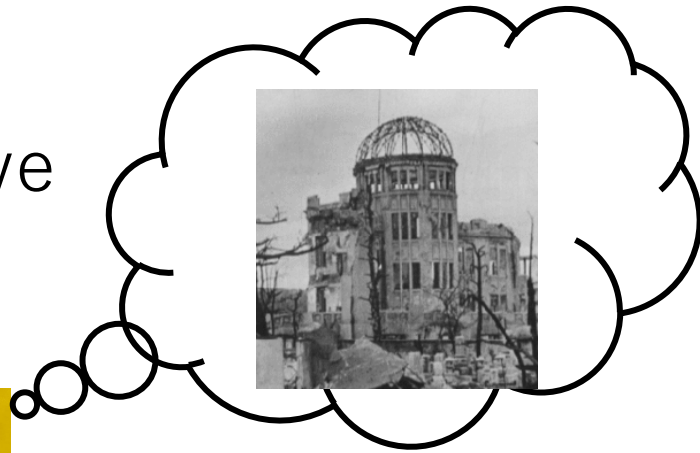

# Expected Reaction

## **Non-academic**

- No understanding of connected data
- Fear
- Disbelieve

## **academic**

- Reasonable reaction
- Curiosity
- Fear

# Important things to tell

- How is decontamination of the soil done and why it works
- Radioactivity dose in Fukushima is safe in most of the places
