

1. Title (both in English for a domestic workshop/conference)	International workshop on J-PARC hadron physics 2023 (J-PARC Hadron 2023)
2. List of members of the organizing committee with full name and affiliation	Kazuya Aoki (KEK), Akinobu Dote (KEK), Philipp Gubler (JAEA), Toru Harada (Osaka EC), Yoshimasa Hidaka (KEK), Atsushi Hosaka (RCNP/JAEA), Masakiyo Kitazawa (YITP), Koji Miwa (Tohoku/KEK), Osamu Morimatsu (KEK), Hiroyuki Sako (JAEA), Fuminori Sakuma (RIKEN), Toshiyuki Takahashi (KEK), Makoto Takizawa (Showa Pharm.), Guangjuan Wang (KEK)
3. Period of workshop / conference	From 12/09/23 To 15/09/23
4. Venue	2F Conference room, AYA's Quantum Beam Research Center
5. Description of the results	<p>The main theme of this workshop is hadron physics which was/is/will be investigated at J-PARC. During the workshop, not only in sessions but also in break times and banquet, participants discussed with each other eagerly J-PARC hadron physics such as strange nuclear physics, hadrons in medium, heavy quark physics (including exotic hadrons), physics of relativistic heavy ion collision, and other topics related to J-PARC. Furthermore, participants who attended the J-PARC tour, they could learn about J-PARC experiments in detail. In summary, by this workshop, we can understand the current situation of J-PARC hadron physics deeply and also it is expected that various new ideas and collaborations on J-PARC hadron physics have been generated via discussions.</p> <p>In addition, it should be noted that nearly half of speakers are from Asian countries (China, Korea, Taiwan, Myanmar, Philippines, Australia). During the workshop, participants very often discussed and enjoyed communicating with each other. Therefore, we could recover the network among hadron physics researchers in Asian region, which has been affected by COVID-19. As we expected, we could strengthen the relationship among us more tightly through this workshop.</p> <p># participants = 134 (Onsite: 84, Online: 50)  # invited speakers = 20 (10 from Japan, 7 from Asia, 3 from Europe)  # contributed speakers = 32 (19 from Japan, 13 from Asia)</p>
6-1. Numbers of participants from overseas	39 (Onsite: 24, Online: 15)
6-2. Numbers of male participants	110
6-3. Numbers of female participants	24
