

1. Title (both in English for a domestic workshop/conference)	RCNP–CENuM–OMEG Symposium on Nuclear Structure, Reaction, and Astrophysics: NuSRAP2024
2. List of members of the organizing committee with full name and affiliation	Jung Keun Ahn (Korea U.), Nori Aoi (RCNP), Myung-Ki Cheoun (Soongsil U.), Kouichi Hagino (Kyoto U.), Nobuo Hinohara (U. of Tsukuba), Chang Ho Hyun (Daegu U.), Shunji Nishimura (RIKEN), Hajime Togashi (RCNP), and Kenichi Yoshida (RCNP)
3. Period of workshop / conference	From 18/12/24 To 20/12/24
4. Venue	RCNP Main Building
5. Description of the results	<p>This workshop was held practically as the third discussion meeting. As in the previous meetings held in Korea, we had a lively discussion among the participants. Since a new RI beam facility, RAON, started the operation, this workshop provided a nice opportunity to enhance the relationship among researchers in two countries. It should be noted that we had 17 talks by students, which is largely thanks to a travel support from RCNP. During the workshop, we come to a conclusion that we want to continue this activity to foster collaboration between Japanese and Korean researchers in the field of physics of exotic nuclei and to promote exchanges among young researchers from Japan and Korea. The next meeting will be held in Seoul.</p>
6-1. Numbers of participants from overseas	13
6-2. Numbers of male participants	60
6-3. Numbers of female participants	6
