1. Title (both in English for a domestic workshop/conference)	Nuclear Reaction Studies -Present and Future-
2. List of members of the organizing committee with full name and affiliation	Kazuyuki Ogata (Kyushu / RCNP) Kenta Itahashi (RIKEN) Tomohiro Uesaka (RIKEN) Tokuro Fukui (RIKEN) Futoshi Minato (JAEA) Kazuki Yoshida (JAEA)
3. Period of workshop / conference	From 08/07/22 To 09/07/22
4. Venue	Lecture Rooms 1&3, RCNP
5. Description of the results	<p>In this workshop, hot discussions were held on the current status and prospects of nuclear reaction research and related fields. One of the objectives of this workshop was, as has been stated from the time of its proposal, to provide an overview of a wide range of topics, not limited to nuclear reactions in the narrow sense. In order to achieve this objective, the following sessions were organized.</p> <ul style="list-style-type: none"> <li>-From nuclear structure to nuclear reaction</li> <li>-Frontiers of quantum reaction research</li> <li>-Experimental challenges to reveal reaction mechanisms</li> <li>-Physics of few-body systems</li> <li>-Hadron reactions</li> <li>-Nuclear medicine and nuclear data science</li> </ul> <p>As described above, we were able to discuss a wide variety of topics based on reaction phenomena.</p> <p>It should be noted that many researchers associated with Dr. Mitsuji Kawai, who pioneered nuclear reaction research in Japan, gathered at the workshop and shared their memorable episodes with him.</p>
6-1. Numbers of participants from overseas	0
6-2. Numbers of male participants	44
6-3. Numbers of female participants	1
