Report of RCNP workshop

1	Title (both in English for a domestic workshop/conference)	International School for Strangeness Nuclear Physics (SNP School 2021)
2	List of members of the organizing committee with full name	Akinobu Dote (KEK), Emiko Hiyama (Tohoku/RIKEN), Tetsuo Hyodo (TMU), Hideko Nagahiro (Nara-WU/RCNP),Takashi Nakano (RCNP), Hiroyuki Noumi (RCNP/KEK), Makoto Oka (JAEA), Hiroaki Onishi (ELPH), Kyoichiro Ozawa (KEK), Toshimitsu Suda (ELPH), Hirokazu Tamura (Tohoku/JAEA), Kazuhiro Tanaka (KEK), Yusuke Tanimura (Tohoku), Masaru Yosoi (RCNP)
3	Period of workshop/conference (From dd/mm/yy to dd/mm/yy)	13/12/2021 - 16/12/2021
4	Venue	RCNP
5	Description o the results	This was the tenth of the series, and was organized hybrid. There are 126 participants altogether. Various contents are: 33 in-person, 93 on-line; 93 students; 34 women. The participants are from 15 countries including Asia, Europe and America. The school consists of the following six lectures, 1. Tetsuya Murakami (RIKEN): Exploring Neutron Stars through Nuclear Physics 2. Eulogio Oset (Valencia Univ, Spain): Dynamically generated hadron resonances 3. Stephen Olsen (IBS, Korea）: XYZ exotic hadrons 4. Yuichiro Sekiguchi (Toho Univ, Japan): Neutron stars, black holes and gravitational waves 5. Kazuhiko Ninomiya (Osaka Univ, Japan): Non-destructive elemental analysis method using negative muon beam 6. Kazuma Nakazawa (Gifu Univ, Japan): Search for double strangeness nuclei and short presentations by young researchers, and facility tour to the RCNP cyclotron (16 people joined) . All the lectures were very attractively presented, and are comprehensive and useful not only for students but also for senior scientists. In the Young Scientists' session, among 41 presenters the following prizes were awarded: (1) The Hashimoto prize, ANPhA 1sr prize: Daiki Suenaga (RCNP) (2) Best among the SNP Incentive prize, ANPhA 2nd prize: Tamao Sakao (Tohoku) (3) The SNP Incentive prize: Nanae Domoto (Tohoku), Ryoko Kino (Tohoku) and Yuko Saito (Tohoku).
