

## **8. Forklift**

**\* Please contact the forklift supervisor listed in the Yellow-Page for any inquiries about a forklift.**

### **<Regulations for forklift operation and use>**

- (1) A forklift operator must receive the specific hands-on training and the appropriate education for safe operation on a forklift-operating skill course. Only the holder of a completion certificate of the forklift training course is competent to operate the forklift.
- (2) In case a forklift operator is neither an RCNP staff member nor a cooperative researcher, a forklift work must be carried out in the presence of an RCNP staff member.
- (3) The forklift operation is not allowed from 9:00 p.m. to 9:00 a.m. and on holidays except under special circumstances such as urgent preparation for experiment.
- (4) If you have any inconvenience, please consult the forklift supervisor and follow his instructions.
- (5) If you find any unusual conditions or malfunctions of a forklift, please contact the forklift supervisor immediately and follow his instructions.
- (6) If you have any inquiries or questions about the operation and use of a forklift, feel free to contact the forklift supervisor or the Administration of Safety and Hygiene, and follow their instructions.
