

9. Work at high place

[For any inquiry, please see the Yellow-Page.]

- Please keep the followings in mind, when you work at height of 2m or more from the floor.

- (1) When working at a high place, it is necessary to set up scaffolding and a fence to avoid falls.
- (2) Scaffolding and fences must be set up by qualified suppliers.
- (3) When working at a high place temporarily without scaffolding and a fence, a safety rope must be used.

- (4) Wear a helmet and suitable shoes for working.
- (5) When using a ladder, make sure it is secured.
- (6) Be careful not to drop tools such as spanners or screwdrivers when working at high places.
